

# Unlock New Horizons: Transition from AWS/Azure to OCI with Ease!

## Expand Your OCI Skills

Are you an experienced AWS/Azure consultant looking to broaden your skill set and explore new possibilities in the fastest growing Oracle cloud Infrastructure (OCI) domain? We have an exciting opportunity tailored just for you!

## Why OCI?

OCI stands as the fastest-growing infrastructure platform, continually expanding its reach and influence in the cloud industry. Its rapid growth signifies an ever-increasing demand for OCI professionals, making it an essential addition to your skill set. OCI features a comprehensive suite of services spanning compute, storage, networking, Analytics, databases, AI, and beyond. Its extensive offerings cater to diverse business needs, empowering organizations to innovate and thrive in the digital age. One of the most effective ways to learn a new skill is to leverage your existing experience, learning, and knowledge in that area and build upon it.

## Discover the seamless transition from AWS to Azure

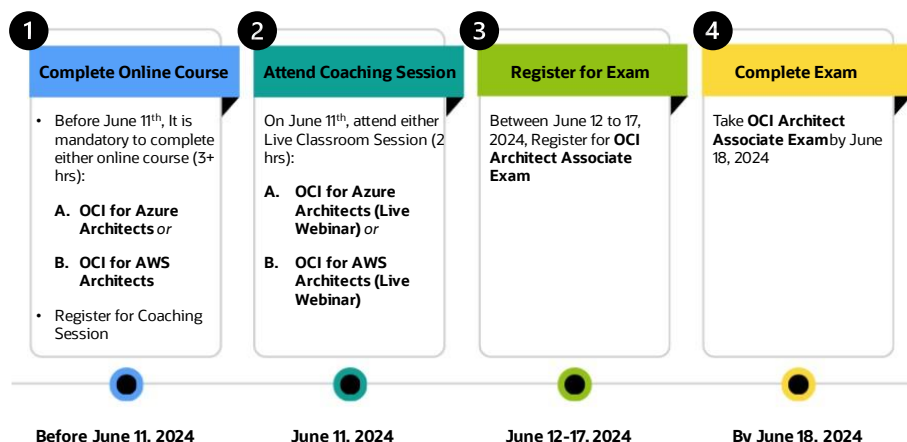

As part of our cross-skill strategy, we are excited to present two new courses:

1. [OCI for AWS Architects](#)
2. [OCI for Azure Architects](#)

These new OCI courses will help you ramp-up to Oracle Cloud faster by building on your existing cloud skillsets, knowledge, and experience. They are:

- Short in length (~3 hours each)
- Completed in 2-3 brief sessions
- Free to everyone

## OCI Learning Journey for AWS & Azure Architects (5+ hours)
